

Malgre मेलग्रे®

MS-05

Malgre MS-05 – PVC Safety Shoes

The Malgre MS-05 PVC Safety Shoes are engineered to deliver superior protection, comfort, and durability in tough working conditions. Crafted from premium PVC material, these shoes offer excellent resistance against water, chemicals, and abrasions. The slip-resistant sole ensures safe footing on slippery surfaces, while the lightweight design provides all-day comfort without compromising on safety. Perfect for industrial, construction, and outdoor environments, the Malgre MS-05 combines reliability with performance to keep you safe on the job.
